**A PARENT'S PERSPECTIVE ON \_\_\_\_\_**  
**( Student's Name)**

Counselors are responsible for compiling a school report for each graduating senior. This report often includes a narrative statement about the student in which we try to provide information which "brings to life" the individual behind all those grades and scores and to call attention to the strengths of each person. We hope that you will take this opportunity to share with your child's counselor perspectives about your son or daughter in order to help him/her to make a statement that is as meaningful as it can possibly be.

1. What do you want most for your child?

---

---

---

2. What are your child's best qualities?

---

---

---

3. What activity or experience is the single most significant in expressing those best qualities?

---

---

---

4. Please describe any special occurrences which might have affected your child's school record.

---

---

---

5. Any additional comments you'd like to make. (Use another sheet if necessary.)
