AVERILL PARK CENTRAL SCHOOL DISTRICT CODE OF CONDUCT

2023-2024

INTRODUCTION:

The Code of Conduct was constructed with the belief that appropriate steps must be taken in order to assure that the rights of all stakeholders (students, faculty, staff, administrators and parents/guardians) are upheld. Further, it allows for all to be able to undertake their responsibilities toward contributing to making the schools of the Averill Park Central School District a safe and nurturing place of academic learning and individual growth.

Discipline is most effective when it deals with the problem at the time and place it occurs, and in a way that students view as fair and impartial. School personnel who interact with students are expected to use disciplinary action only when necessary and place emphasis on the individual student's ability to grow in self-discipline. Disciplinary action, when necessary, will be firm, fair and consistent so as to be the most effective in changing student behavior.

In determining the appropriate disciplinary action, school personnel authorized to impose disciplinary penalties at a given level will consider the following:

- The student's age.
- The nature of the offense and the circumstances which led to the offense.
- The student's prior disciplinary record.
- The effectiveness of other forms of discipline.
- Information from parents, teachers, and/or others, as appropriate.
- Other extenuating circumstances.

As a general rule, discipline will be progressive in nature and will always be conducted in such a way that the confidentiality of students is maintained. This means that a student's first violation will usually merit a lighter penalty than subsequent violations.

EXPECTATIONS FOR BEHAVIOR

Appropriate behavior is a choice. It is the belief of the Averill Park Central School District that the majority of students want to comply with school rules. These young people should be consistently rewarded. Positive reinforcement in our schools will take place in a variety of forms, which may include positive praise, awards and recognition, and extra privileges. These represent just a few of the many methods our staff uses to reward good behavior and citizenship.

Students who choose to not follow the established rules will be provided appropriate consequences, which are outlined later in this document.

The classroom teacher generally handles the majority of behavioral issues that arise. The principal and parent/guardian are involved in this process as deemed appropriate. Our Child Study Teams, typically consisting of the principal, teachers, psychologist, nurse and support staff regularly review students who struggle with behavioral or academic difficulties in order to assist in making recommendations for positive resolution.

Ideal discipline is self-directed and self-controlled. In order to assure an orderly environment in which each person may live and learn to his/her fullest capacity and in harmony with others, the school, community, and parent/guardian must work together in sharing the responsibility for helping students develop self-discipline. When self-discipline fails, or self-control falters, disciplinary measures outside the individual must be imposed to protect the rights of others. In the school district, as in the community-at-large, certain rules and procedures must be established to guide students through constructive growth into mature adulthood. Parents and guardians, teachers, and others who are responsible for the welfare and education of our students must cooperate to interpret and enforce these rules.

The Averill Park Central School District has guidelines in place for behavior, which include our buses, classrooms, hallways, grounds and while on field trips domestic and foreign. These guidelines are communicated often to our student body, but our goal is for each and every student to develop a self-discipline that will help him/her throughout life.

RIGHTS AND RESPONSIBILITIES:

The Board of Education of the Averill Park Central School District declares its full concurrence with and support of the principles and provisions of the Code of Conduct for Averill Park Central School District. Further, the Board pledges its full support to the administration, teachers, and staff of the School District in their fair and consistent enforcement of the Code.

Adopted by the Board of Education, June 23, 1998.

Addendum approved by the Board of Education, July 22, 2014

It is the belief of the Averill Park School District that in order for its Code of Conduct to be effective, the school district must have the cooperation and support of the entire community--students, parents, teachers, administrators, community, Board of Education, police, and judicial personnel. A breakdown in any part of this system puts the effectiveness of the Code of Conduct in jeopardy.

A committee comprised of students, staff, parents and administrators met to formulate this Code of Conduct during the 1997-98 school year. A similar committee will annually review this document.

I. Introduction:

1. The foundation of our Code of Conduct is respect for oneself, others, rules, and authority. The purpose of creating a code of responsibility is to clearly define what constitutes respect. Respect involves taking ownership of one's behavior. The following outline is designed to create and maintain a school climate in which all of us can work and learn safely and effectively. It summarizes items of law, Board of Education policies, and administrative regulation. It is intended to ensure that each student has the opportunity to achieve, both intellectually and socially, that the academic program is free of interruptions and that the rights and property of everyone in the building are respected.
2. When the Code of Conduct is not followed, designated consequences will be enforced. It is the school's responsibility to help students develop those strategies which will help them become more responsible. The Board recognizes the rights of teachers and administrators to remove disruptive students in an effort to assure security, safety, and a positive learning environment within the school. Provisions for continued educational programming for students so removed are the responsibility of the school district. Students identified as having special needs are assured of compliance with state and local laws in all cases.
3. The following pages contain rights and responsibilities as defined by the committee of parents, community members, administrators, teachers, and students. This document will be provided to all students, faculty, and parents via the district website.

THE DIGNITY FOR ALL STUDENTS ACT

New York State's Dignity for All Students Act (The Dignity Act) seeks to provide the State's public elementary and secondary school students with a safe and supportive environment free from discrimination, intimidation, taunting, harassment, and bullying on school property, a school bus and/or at a school function. The Dignity Act was signed into law on September 13, 2010 and took effect on July 1, 2012.

The Dignity for All Students Act was amended on July 1, 2013 to include statutory definitions and expand upon procedures and protections related to implementing the Dignity Act. The intent of the amended Dignity for All Students Act (Dignity Act) is to provide all public-school students with an environment free from harassment, bullying (including cyber bullying) and discrimination, as well as to foster civility in public schools. The Dignity Act focuses on the prevention of discriminatory behaviors, including harassment, bullying and/or discrimination through the promotion of educational measures meant to positively impact school culture and climate. The amended Dignity Act requires that all public school districts (districts) and Boards of Cooperative Educational Services (BOCES) include provisions in their Codes of Conduct prohibiting harassment, bullying (including cyberbullying), and/or discrimination against students by students and/or school employees on school property or at a school function, as well as provisions for responding to acts of discrimination and harassment against students by students and/or school employees on school property or at a school function.

The Dignity Act (Education Law §11[7]) defines harassment as the creation of a hostile environment by verbal and nonverbal conduct, verbal threats, intimidation or abuse, including cyberbullying, that has or would have the effect of unreasonably and substantially interfering with a student's educational performance, opportunities or benefits; or mental, emotional and/or physical well-being; including conduct, threats, intimidation or abuse that reasonably causes or would reasonably be expected to cause emotional harm; or reasonably causes or would be reasonably expected to cause a student to fear for his or her physical safety. Such acts include harassment, bullying and/or discrimination that occur on school property; at a school function or off school property where such acts create or would foreseeably create a risk of substantial disruption within the school environment where it is foreseeable that the conduct, threats, intimidation or abuse might reach school property. Such conduct, verbal threats, intimidation or abuse, may be based on any characteristic including, but not limited to a person's actual or perceived:

- race
- color
- weight
- national origin
- ethnic group
- religion
- religious practice
- disability
- sex
- sexual orientation
- gender (which includes a person's actual or perceived sex, as well as gender identity and expression).

“Discrimination” means discrimination against any student by a student or students and/or employee or employees on school property or at a school function including, but not limited to, discrimination based on a person’s actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender or sex.

“Employee” means any person receiving compensation from a school district or employee of a contracted service provider or worker placed within the school under a public assistance employment program, pursuant to title 9-B of article 5 of the Social Services Law, and consistent with the provisions of such title for the provision of services to such district, its students or employees, directly or through contract, whereby such services performed by such person involve direct student contact (Education Law §§11[4] and 1125[3]).

For purposes of this definition, the term “threats, intimidation or abuse” shall include verbal and non-verbal actions. (Education Law §11[7])

“Cyberbullying” means harassment/bullying, as defined above, through any form of electronic communication and may include, among other things, the use, both on and off school property, of electronic technology and communication devices, including, but not limited to, e-mail, instant messaging, blogs, chat rooms, pagers, cell phones, iPods, gaming systems and social media websites, to deliberately harass or threaten others.

“Hostile Environment” in the context of harassment and bullying refers to an environment that is so severe or pervasive as to unreasonably and substantially interfere with a student’s education.

“Material Incident of Harassment, Bullying and/or Discrimination” means a single, verified incident or a series of related verified incidents where a student is subject to harassment, bullying and/or discrimination by a student and/or employee on school property or at a school function. - color
- weight
- national origin
- ethnic group
- religion
- religious practice
- disability
- sex
- sexual orientation
- gender (which includes a person’s actual or perceived sex, as well as gender identity and expression).

Nothing in this provision will prohibit a denial of admission into, or exclusion from, a course of instruction based on a person’s gender that would be permissible under Education Law §3201-a or 2854(2)(a) and Title IX of the Education Amendments of 1972 (20 U.S.C. §1681, et seq.), or to prohibit, as discrimination based on disability, actions that would be permissible under Section 504 of the Rehabilitation Act of 1973. The Dignity Act emphasizes the creation and maintenance of a positive learning environment for all students free from harassment and discrimination. Each District must develop guidelines relating to the development of non-discriminatory instructional and counseling methods and address personal biases that may prevent equal treatment of all students in the school or classroom setting and develop strategies to confront issues of discrimination and harassment or any situation that threatens the emotional or physical health and safety of a student, school employee or a person who is lawfully on school property or at a school function.

In addition, the amended Dignity Act requires the development of measured, balanced, progressive, and age-appropriate responses to discrimination, harassment, and/or bullying, including cyberbullying, of students by students and/or employees. Remedial responses should be included in the Code of Conduct and place the focus of discipline on discerning and correcting the reasons why discrimination, harassment, and bullying occurred. The remedial responses should also be designed to correct the problem behavior, prevent another occurrence of the behavior, and protect the target of the act. Appropriate remedial measures may include, but are not limited to:

- peer support groups;
- assignment of an adult mentor at school that the student checks in with at the beginning and end of each school day;

Environmental remediation may include, but is not limited to:

- Modification of schedules;
- Adjustment in hallway traffic and other student routes of travel;
- Targeted use of monitors;
- Parent education seminars/workshops;
- Peer support groups
- Class, grade, school and district-wide assemblies and programs

In the event of disciplinary actions in response to acts of harassment, bullying and or discrimination against students by employees or students, a progressive model of student discipline shall be imposed which includes measured, balanced and age-appropriate remedies and procedures that make appropriate use of prevention, education, intervention and discipline and shall consider, among other things, the nature and severity of the offending student's behavior, the developmental age of the student, the previous disciplinary record of the student and other extenuating circumstances as well as the impact the student's behaviors had on the individual(s) who was physically injured or emotionally harmed as a result of such acts. Responses shall be reasonably calculated to end the harassment, bullying and/or discrimination, prevent recurrence and eliminate the hostile environment. Disciplinary measures available to school authorities include, but are not limited to the following:

In the event that a DAC vacates his or her position, another eligible employee must be immediately designated for an interim appointment as Coordinator, pending approval of a successor Coordinator by the Board of Education within thirty (30) days of the date the position was vacated. In the event a Coordinator is unable to perform the duties of his or her position for an extended period of time, another eligible employee shall be immediately designated for an interim appointment as Coordinator, pending the return of the previous Coordinator to his or her duties as the DAC.

The name(s) and contact information for the DAC will be shared with all school personnel, students, parents and persons in parental relation. The information provided will include the name, designated school and contact information for each DAC. DISCRIMINATION, HARASSMENT, HAZING, BULLYING

The Board of Education recognizes that discrimination, hazing, harassment (sexual or otherwise), and/or bullying, including cyber-bullying, of students and/or staff is abusive and may constitute illegal behavior that harms victims and negatively impacts the school culture by creating an environment of fear, distrust, intimidation and intolerance. The Board further recognizes that preventing and remedying discrimination, hazing, harassment, and/or bullying in schools is essential to ensure a healthy, nondiscriminatory environment in which students can learn and employees can work productively.

The Board is committed to providing an educational and working environment that promotes respect, dignity and equality and that is free from all forms of harassment. To this end, the Board condemns and strictly prohibits all forms of discrimination, hazing, harassment, and/or bullying on school grounds, school buses and at all school-sponsored activities, programs and events including those that take place at locations outside the district.

General Statement of Policy:

- No student, teacher, administrator, volunteer, contractor or other employee of the school district shall plan, direct, encourage, aid or engage in discrimination, hazing, harassment and/or bullying.
- No student, teacher, administrator, volunteer, contractor or other employee of the school district shall permit, condone or tolerate discrimination, hazing, harassment and/or bullying.
- Students, parents and persons in parental relation may make an oral or written report of harassment, bullying and/or discrimination to teachers, administrators and other school personnel designed by the District.
- Apparent permission or consent by a person being subjected to discrimination, hazing, harassment or bullying does not lessen the prohibitions contained in this policy or the enforcement of this policy.
- This policy applies to behavior directly connected to school activities that occur on or off school property and before, during, and after school hours.
- A person who engages in an act that violates school policy or law shall be subject to discipline for that act.

Sexual Harassment:

Harassment can occur employee to student, student to employee, employee to employee, student to student, and from gender to gender. REFERRALS TO OUTSIDE AGENCIES

A. Child Protective Services Investigations

Consistent with the district’s commitment to keep students safe from harm and the obligation of school officials to report to child protective services when they have reasonable cause to suspect that a student has been abused or maltreated, the district will cooperate with local child protective services workers who wish to conduct interviews of students on school property relating to allegations of suspected child abuse, and/or neglect, or custody investigations.

All requests by child protective services to interview a student on school property shall be made directly to building principal or his or her designee. The principal or his or her designee shall set the time and place of the interview.

A child protective services worker may not remove a student from school property without a court order, unless the worker reasonably believes that the student would be subject to danger of abuse if he or she were not removed from school before a court order can reasonably be obtained. If the worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parent’s consent.

B. Law Enforcement Notification

All illegal activities shall be referred to the appropriate law enforcement agency.

C. PINS Petitions

The district may file a PINS (person in need of supervision) petition in Family Court on any student under the age of 18 who demonstrates that he or she requires supervision and treatment by: Being habitually truant and not attending school as required by part one of Article 65 of the Education Law.

The Superintendent is required to refer students age 16 and older or any student 14 or 15 years old who qualifies for juvenile offender status to the appropriate law enforcement authorities.

SEARCHES AND INVESTIGATIONS

A. Searches

The Board of Education is committed to ensuring an atmosphere on school property and at school functions that is safe and orderly. To achieve this kind of environment, any school official may question a student about an alleged violation of law and/or the District Code of Conduct. Students are not entitled to any “Miranda”-type warning before being questioned by school officials, nor are school officials required to contact a student’s parent/guardian before questioning the student. However, school officials will inform all students why they are being questioned and/or searched.

In addition, the Board authorizes the Superintendent, building principals, building assistant principals, other administrators, the school nurse, and district security officials to conduct searches of students and their belongings, which includes student vehicles parked on District property, with exceptions set forth below, so long as the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the law or the District Code of Conduct.

An authorized school official may conduct a search of a student’s belongings that is minimally intrusive, such as touching the outside of a book bag, without reasonable suspicion, so long as the school official has a legitimate reason for a very limited search.

An authorized school official also may search a student or the student’s belongings based upon information received from a reliable source that the student possesses contraband. Before searching a student’s person or the student’s belongings the authorized school official should ask the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence believed to exist but may include a physical pat down of the student’s person.

Whenever practical, searches will be conducted in the privacy of administrative offices and the student will be present when their possessions are being searched. Searches will be conducted in the presence of two adults whenever possible.

If there is reasonable suspicion to search a student’s vehicle and consent is not given and/or the student is not cooperative in the search of the vehicle, parking privileges may be revoked in the discretion of the Superintendent and/or High School Principal.

Under no circumstances will any school personnel conduct a strip search of any other person. For purposes of this section, requiring the removal of an outer coat or jacket, or shoes and socks, shall not constitute a strip search. In the unlikely event that a strip search is believed to be warranted, the police should be summoned to the scene.

B. Exceptions to Searches

The rules in this Code of Conduct regarding searches of students and their belongings do not apply to student lockers, desks, and other school storage places. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means students' lockers, desks, and other school storage places may be subject to search at any time by school officials, without prior notice to students and without their consent.

C. Documentation of Searches

The authorized school official conducting the search shall be responsible for promptly recording the following information about each search:

1. Name, age, and grade of student searched
2. Reasons for the search
3. Name of any informants
4. Purpose of search (that is what items were being sought)
5. Type and scope of search
6. Persons conducting searches and their titles and positions
7. Witnesses, if any, to the search
8. Time and location of search
9. Results of search
10. Disposition of items found
11. Time, manner, and results of parental notification

The building principal or the principal's designee shall be responsible for the custody, control, and disposition of any illegal or dangerous item taken from a student. The principal or the principal's designee shall clearly label each item taken from the student, photograph the item, and retain control of the item until it is turned over to police.

D. Police Involvement in Searches and Investigations of Students

District officials are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. Police officials may enter school property or a school function to question or search a student or to conduct a formal investigation involving students only if they have:

1. A search or arrest warrant or other court order authorizing the student's removal; or
2. Probable cause to believe a crime has been committed on school property or at a school function and some imminent circumstance continues to exist

Before police officials are permitted to question or search any student, the principal or his or her designee shall first try to notify the student's parent/guardian to give the opportunity to be present during the police questioning or search. If the student's parent/guardian cannot be contacted prior to the police questioning or search, the questioning or search shall not be conducted in the absence of either of the above two circumstances. The principal or designee will also be present during any police questioning or search of a student on school property or at a school function.

Students who are questioned by police officials on school property or at a school function will be afforded the same rights they have outside of school. This means:

1. They must be informed of their legal rights.
2. They have the right to remain silent.
3. They may request the presence of an attorney.

Good citizenship is accomplished through combined efforts of home and school. Cooperation and support of parents and/or guardians is essential to maintaining safety and order.

Discipline

No single set of guidelines can provide a means of anticipating the variety of disciplinary situations that occur. It is the responsibility of teachers and principals to investigate each incident on an individual basis and determine the appropriate course of action.

Classroom teachers and support personnel will always attempt to handle and resolve situations which occur under their supervision by having a discussion with the student, contacting the parent, or restricting the student's privileges. Should the problem not be resolved, the problem will be referred to the principal. Depending on the nature of the problem, the frequency of its occurrence and the student's history, the principal will decide the appropriate action for the behavior.

Below is a list of possible action steps:

- Student conference with teacher or staff member
- Teacher contact with parent
- Principal contact with student
- Principal contact with parent
- Discipline Report Form
- Conference with parent, student, teacher, and principal
- Exclusion from an activity
- Repair, clean or restitution of property damages.
- Loss of bus privileges

Classroom Behavior

The classroom is the prime learning center of the school. It is the responsibility of the students to put forth their best effort to learn. Students should know the expectations of behavior rules for their classroom set in place by their teacher. In order to make the classroom a suitable and safe place to learn and an enjoyable place for all students to spend the day, all students will:

- Be prepared with necessary materials to learn
- Listen when an adult or another student is speaking
- Transition appropriately from one activity to another
- Complete all work to the best of their ability

Student Dress Code

All students and their families have the primary responsibility for acceptable student dress and appearance. Teachers and all other district staff should exemplify and reinforce acceptable student dress and help students to develop an understanding of appropriate appearance in school. A student's dress, grooming and appearance, including hairstyle/color, jewelry, make-up and nails, shall:

1. Be safe, appropriate and should not disrupt or interfere with the educational process. Hats and/or bandanas should not be worn except during theme days (such as Hat Day).
2. Not include items that are offensive, vulgar, obscene, libelous, or denigrate others on account of race, color, religion, creed, national origin, gender, sexual orientation or disability.
3. Not promote and/or endorse the use of alcohol, tobacco cannabis or illegal drugs and/or encourage other illegal or violent activities.
4. Include safe and appropriate footwear for PE and recess. Footwear that is a safety hazard- such as flip flops, crocs or shoes without a back, high-heeled shoes and retractable roller blade sneakers- will not be allowed.

Each day, weather permitting, there is outdoor recess. Please make sure that your child wears appropriate clothing, including footwear, hat, gloves, warm jacket and snow pants. Please label all outerwear with your child's name so that lost items may be returned to the student.

Please encourage your child to check the Lost and Found if an item has been lost.

Interpretation of the dress code will be at the discretion of the building principal. Students who violate the dress code shall be required to change their appearance by covering or removing the offending item and if necessary, replace it with an acceptable item.

Electronics & Toys on School Property

Bringing personal electronic and communication devices, including, but not limited to cell phones, electronic wearables, electronic games, iPods, tablets, i-Pads, is discouraged at the elementary level. These items are not allowed in class and may not be turned on during the day except if a teacher allows his/her students the use of electronic devices during instruction time for academic purposes.

Toys and personal items coming to school present a number of problems which can result in items being lost, broken, or breakage, or stolen. Most importantly these unnecessary items disrupt the educational process. We ask that parents/families do not permit these items coming into school. The school district will not be responsible for any lost, stolen, or damaged items. Your child's teacher may permit certain types of toys, games, or equipment to be brought to school in certain circumstances. Please uphold the requests of the teachers when these exceptions occur.

Therefore, the following behaviors are expected:

- Sit where an adult in charge instructs, and remain seated during assemblies. If a need arises, the student only leaves with permission from the supervising adult.
- Watch and listen politely to performances and speakers.
- Clap after performance and other appropriate times during the show to demonstrate appreciation. Whistling, cheering, screaming, stomping feet, booing or other noise making is not an appropriate way to show appreciation and is unacceptable assembly behavior.
- Leave at the end of the assembly in an orderly fashion, following the directions of an adult in charge.

Recess & Playground Rules

It is each student's responsibility to share the equipment, obey the rules, teachers and /or recess monitors on duty. When visiting the playground whether it is before, after, or during school hours, exhibit good safety practices AT ALL TIMES. For the safety and enjoyment of all students at recess, students are expected to:

Transportation Code of Conduct

Our Transportation Department takes great pride in providing a safe and quality service to students. In order to make this part of the school day safe, the following rules are in place. Keep in mind that behavior must mirror the classroom rules.

Basic Rules of Riding:

- Students should be at their stop and visible at least 5 minutes before their scheduled pickup time. Porches and doorways are not acceptable areas for waiting.
- Students should keep their hands to themselves and stay seated at all times while the bus is in motion.
- Following indicated crossing procedures and basic rules ensure everyone's safety.
- All changes in your child's transportation should be communicated directly to your child's building main office. Written notes are also required at the building level.

Assigned Seating:

APCSD has assigned seating in all of its buses that transport students. The primary reason for this is one of safety. In the event of an accident, this information is crucial. The secondary reason is that of discipline. Having a driver know exactly where each child is seated helps determine who is or is not being safe.

Student Discipline:

The discipline process is as follows:

- The driver writes a referral describing the behavior that took place and all previous attempts to remedy it.
- The referral will be reviewed and signed by the Transportation Supervisor and, in case of serious infractions, the building principal will be involved.
- When necessary, referrals will be forwarded to the building principal and the Director of Special Education, as appropriate.
- The building principal will return the completed referral directly to the Transportation Supervisor once follow-up has occurred.
- Students/Parents are responsible for reimbursing the school district for the repair or replacement of damage—this is not in lieu of appropriate behavior consequences.
- Communication with parents will be initiated so that they are informed of the matter.

Severe Conduct Requiring Immediate Action:

Below is the list of some behaviors that are serious and distract the driver or create an unsafe situation.

- Weapons
- Violence
- Smoking and/or open flame
- Hate-related actions/language
- Vandalism to bus
- Throwing objects at the bus
- Sexual misconduct
- Profane language directed at a staff member
- Harassment, bullying and/or discriminatory behavior

Expectations for Student Bus Behavior:

Actions, which distract the driver and are unacceptable

- Shouting
- Profane/vulgar language
- Hitting/pushing
- Throwing objects
- Moving from assigned seat
- Bullying
- Harassment
- Discrimination

Actions, which create an unsafe situation

- Throwing items out of the bus
- Placing body parts out of the bus window
- Not staying in assigned seat while bus is in motion
- Not complying with driver's directions the first time
- Not following the correct loading/unloading/crossing procedures
- Bringing items on the bus that can not fit in a book bag
- Bringing on animals or insects
- Bringing glass on the bus
- Eating and/or drinking on the bus

Cell Phone Usage:

Cell phones may be used on buses. If it is determined that the cell phones are distracting the driver or is being used in a harassing manner the driver will request the phone be turned off and put away.

Bus Switching:

Due to overcrowding of buses, we are not able to honor requests for transfer of students to any other bus other than the one which takes them to and from their legal residence. In the event of an extreme emergency, the parents/guardians may contact the transportation department at 674-7070 for permission to allow the transfer. A written note should accompany the child to their building principal. The Transportation Department reserves the right to deny any request for a switch of bus runs without District Office authorization if necessary.

Wireless Network

It is the intention of the Averill Park Central School District to provide a high level of reliability and security when using the wireless network. Wireless Access Points provide shared bandwidth and so as the number of users increase the available bandwidth per user decreases. As such, please show consideration for other users and refrain from running high bandwidth applications and operations such as downloading large music files and video from the Internet. Network reliability is determined by the level of user traffic and accessibility. Wireless networking represents supplemental access to the APCSD network. Wired access is still the preferred way for connectivity.

As the deployment and usage of the APCSD wireless network progresses, we reserve the right to adjust the access and usage policies, and guidelines as necessary, for the sole benefit of APCSD wireless users to provide a safe and reliable computing environment and ensure high quality secured services. It is the responsibility of all persons using the Wireless Internet Access network to be familiar with this policy and the Internet Policy.

All installed wireless access points and antennas are the property of APCSD. Do not tamper with, adjust, abuse, repair, or otherwise touch these access points and their antennas.

We reserve the right to monitor and log communications on a per connection basis to ensure proper usage of network resources for both wired and wireless connections.

Personally Owned Internet Devices

We reserve the right to monitor and log communications undertaken over the schools wired and/or wireless networks.

AVERILL PARK ATHLETIC CODE OF CONDUCT

Participation in interscholastic athletics at Averill Park is a privilege, not a right, and is contingent upon the student-athlete's willingness to commit to the provisions of the Athletic Code of Conduct. The privilege of wearing the blue and gold should elicit great pride in both student-athletes and his/her family. It is also a responsibility which requires an extra commitment, both inside and outside of the school building. Standards of behavior are necessarily high and a willingness to live up to them is a condition for participation. Consistent with these standards, and as a continuing condition of eligibility, student-athletes are required to sign the Athletic Participation Contract prior to each season. The student-athlete's signature, along with that of his/her parent/guardian, indicates they both recognize and understand this responsibility and that the student-athlete agrees to adhere to the Athletic Code of Conduct.

Appropriate Conduct Requirements

Student-athletes shall avoid any infractions of the Averill Park Central School District Code of Conduct. In addition, student-athletes shall avoid any action(s) or the participation in an activity outside of school, which might bring embarrassment or an unfavorable view on the student-athlete, his/her teammates, coaches, family, school or community. Such alleged violation(s) will be subject to review and possible subsequent action. Examples of some behaviors which would be considered as violations of the Athletic Code of Conduct and subject to the eligibility chart include, but are not limited to:

- Any infraction which results in an Out of School Suspension (OSS)
- Use, Possession, or Sale of Alcohol
- Use, Possession, or Sale of Tobacco Products (including alternative nicotine products and/or paraphernalia)

- Constructive Possession – Student-athletes who are found to have been voluntarily associating with others who are illegally using, possessing or selling drugs, drug paraphernalia cannabis, cannabis paraphernalia, or alcohol, and who do not attempt to remove themselves in a reasonable amount of time are in violation of the Athletic Code of Conduct.
- Hazing – Coaches will not permit, nor will student-athletes participate in, any type of hazing at any time. Hazing is defined by any conduct or method of initiation into any interscholastic team, whether on public or private property, which deliberately or recklessly exploits a less powerful student-athlete physically, emotionally, and/or socially.
- Theft and/or Destruction of Property – Theft and/or destruction of property of any kind, including property of Averill Park or our opponents will not be tolerated.

Application of the Code

The Athletic Code of Conduct shall be in effect for 365 days per year and will be in effect at all times, in all locations, including non-school activities. Each coach also has the prerogative to establish additional guidelines specific to his/her particular team, so long as such guidelines do not erode or minimize the criteria set forth herein.

Self-Reporting

Any off-campus Athletic Code of Conduct violation that is self or family reported to the Director of Athletics **prior** to athletic staff and/or Director of Athletics awareness of the violation may result in up to a 50% reduction of the normal penalty. This will only be honored one time during the career of the student-athlete.

Penalties

Violations of the Athletic Code of Conduct will result in penalties as determined formally by the Director of Athletics and Building Principal. The consequences listed below may be modified or tailored by the Director of Athletics and Building Principal to meet the circumstances of special situations as they arise. In determining appropriate penalties, the Director of Athletics and Building Principal shall be guided as follows:

First Offense

- 1) If an offense occurs that is deemed to be a violation of the Athletic Code of Conduct, the student-athlete will be allowed to practice with the team but shall not be allowed to participate in the team's scheduled contests according to the eligibility chart. Scrimmages are **not** considered scheduled contests.
- 2) Penalties which cannot be served during the sport season in which they are imposed will be carried over for completion in the next sports season in which the student-athlete participates. The penalty assigned will be adjusted proportionately based on the number of regular season scheduled contests in the subsequent season.

Second Offense

If a second offense occurs, the game penalty will be increased according to the eligibility chart. If the second offense occurs within the same calendar year as the first offense, the games penalty will be increased proportionally. For example, for a 16-game season a second offense in the same calendar year as the first offense the penalty would be 12 games. For a second offense within the same sports season the athlete will be suspended for the remainder of the season.

Third Offense

If a third offense occurs the student-athlete shall be removed from participation in **all** interscholastic athletics for one calendar year beginning on the date the penalty for the third offense is imposed.

Offenses Resulting in Arrest or the Filing of Formal Charges in Court

In the case of an arrest for a criminal offense or filing of charges, disciplinary action will be at the discretion of the Director of Athletics and Building Principal.

*It should be noted, notwithstanding the above chart of penalties, that facts of an incident may warrant immediate removal from the team if the Director of Athletics and Building Principal believe that the offense committed by the student-athlete warrants such action.

Due Process

Prior to the imposition of any penalty under the Athletic Code of Conduct, the Director of Athletics and/or Building Principal will notify the student-athlete of the nature of the infraction and the student-athlete will be given an opportunity to explain his/her side of the story. The student-athlete may have a representative, agreed upon by the parent/guardian, to speak on his/her behalf.

Appeal Procedure

The student-athlete and/or parent/guardian have the right to appeal penalties under the Athletic Code of Conduct to the Director of Athletics. Appeals must be made in writing within three school days of assignment of a penalty for an Athletic Code of Conduct Violation. A response to the appeal will be provided within three school days after receipt of the letter by the Superintendent.

Extended School Detention (ESD)

Any student-athlete serving an ESD will not be able to practice or play on the day of an ESD.

Academic Eligibility

Participation in athletics generally has a positive effect on academic performance. Student-athletes are required to meet prescribed academic standards as a condition of participation in athletics at Averill Park. The following academic improvement plan framework is in place for students that are failing one or more courses on either a progress report or a report card:

- One failure – The student-athlete must stay after school at least two times per week.
- Two failures – The student-athlete must stay after school at least three times per week.
- Three or more failures – The student-athlete must stay after school at least four times per week.

*Approved tutor sessions will count as an after-school session.

*Failures from the fourth quarter of the previous school year will carry over.

Any student-athlete that is on an academic improvement plan will need to turn in a progress report to their respective coach at the end of each week to ensure that the student-athlete is meeting the expectations of staying after school and displaying academic progress. Once a student-athlete is placed on an academic improvement plan they will be required to stay on the academic improvement plan until the next progress report or report card comes out. If the student-athlete is passing all of his/her courses at this time the student-athlete will be taken off of the academic improvement plan, otherwise the student-athlete will remain on the academic improvement plan. Student-athletes who do not meet the requirements of the academic improvement plan will jeopardize their ability to participate in interscholastic athletics.
