

Women in Law

March 13, 2026

The Women's Bar Association of the State of New York (WBASNY) and Capital District Women's Bar Association, a Chapter of WBASNY, presents the annual Women in Law Program. This is an exciting educational and mentorship opportunity for high school women. The Program is co-sponsored with the New York State Unified Court System, Third Judicial Department and the Office for Justice Initiatives.

The Women in Law program brings students and legal professionals together at local courthouses to teach young women about the various professions in the law and to promote the advancement of women in the legal profession.

Students will hear from dynamic, professional women in the legal community, including esteemed Justices of the State and Local Courts, Law Clerks, Attorneys, Mediators, Stenographers, Legislators, and Court Officers. The panelists will speak about their respective professions, journeys, and experiences in the legal field.
